The screenshot displays a weekly shift scheduler interface. At the top, there are tabs for "Week" (highlighted in purple) and "Month", along with date range "1 Jan 2025 - 7 Jan 2025" and a "Save as draft (32)" button. The main area is a 3x4 grid representing Mon 1, Tue 2, Wed 3, and Thu 4. Row 1 contains employee Mohamed Zabin with two shifts: "Morning shift 07:00 - 12:00 DIFC" on Mon 1 and Tue 2. Row 2 contains employee Fatima Abdullah with one shift: "Evening shift 16:00 - 21:00 MOTORCITY" on Mon 1. The grid uses color coding: blue for shifts assigned to Mohamed Zabin and green for shifts assigned to Fatima Abdullah.

	Mon 1	Tue 2	Wed 3
Mohamed Zabin	Morning shift 07:00 - 12:00 DIFC	Morning shift 07:00 - 12:00 DIFC

The screenshot displays the Bayzat Knowledge Hub's user interface. On the left, a purple sidebar contains a question "Does my health insurance cover for routine dental cleaning?" above a circular profile picture of a woman. Below this is a grey box containing an AI-generated answer: "Your health insurance does cover routine dental cleaning, which falls under the dental benefit. This includes services like consultation, X-ray, scaling, and polishing. However, please note that this benefit is subject to an additional premium and a 20% co-pay. The coverage limit is AED 5,000 for in-network direct billing and AED 3,500 for out-of-network reimbursement." To the left of this sidebar is a purple circular icon with a white starburst pattern. On the right, there is a white card with three sections: "Summarize" (purple icon of a document with a star), "Key Points" (purple icon of a document with a list), and "Download" (purple icon of a downward arrow). Each section has a brief description below it.

## HR SERVICE DESK: AUTOMATED HR REQUESTS MANAGEMENT

Free up HR bandwidth by automating employee requests across the board — from routine attendance updates to complex approvals like salary letters or business travel. With real-time tracking and a centralized ticketing system, employees gain full visibility while HR spends less time chasing, following up, or manually processing requests — all within one unified, mobile-first platform.

### KEY FEATURES

- Custom Request Types**  
Create and manage tickets for attendance adjustments, salary certificates, travel approvals and more.
- Flexible Approval Workflows**  
Design approval processes tailored to each request type, ensuring efficient handling.
- Employee Self-Service Portal**  
Empower employees to submit and monitor requests independently, reducing HR workload.
- Real-Time Tracking & Notifications**  
Keep employees informed with instant updates on request statuses and automated reminders.

The screenshot shows the 'Create a workflow' interface. It starts with a 'Start from scratch' section containing a 'Create from scratch' button. Below that is a 'Or pick a template' section with a 'Onboarding (8)' option selected. This leads to a list of four workflow templates: 'Assign a task list on new employee hire', 'Send a welcome slack message to a new hire', 'Email new employees to upload documents', and 'Send Insurance information to new hire'. To the right of the interface is a visual representation of the workflow logic:

```
graph TD; When[When 10 days after the hire date] --> If[If The employee is a manager]; If --> Then[Then A Slack message is sent]
```

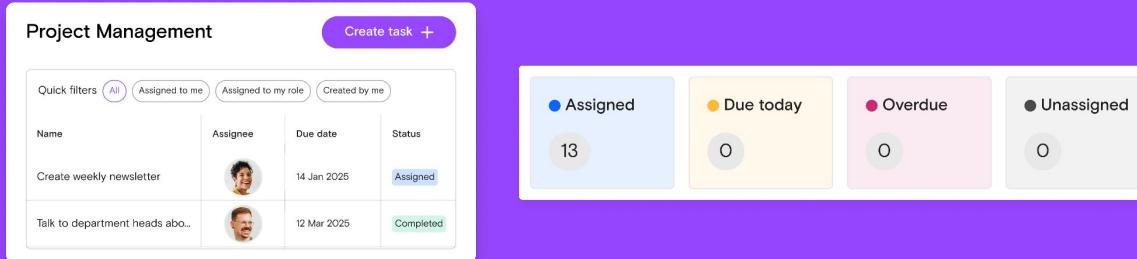

The logic is triggered by an event ('10 days after the hire date') and checks a condition ('The employee is a manager'). If true, it performs an action ('A Slack message is sent').

## WORKFLOWS: EASILY AUTOMATE ANY PROCESS WITH WORKFLOWS

Automate any processes, ensure consistency, and boost efficiency across the entire Bayzat platform, making work life experience simpler and more effective.

### KEY FEATURES
